Suicide Risk Assessment-OLD

Age: 59 Ethnicity: -
 Height: 6ft 0in Race: AMERICAN
 Weight: 172 Interviewer: Mahoney, Psy.D., Jessica (06/05/2018 0935)

**CHARLES JOSEPH
 FREITAG
 #2018003096**

Purpose of Conducting Suicide Risk Assessment:	<input type="radio"/> Patient has been placed on suicide watch by staff <input checked="" type="radio"/> Patient referred to MH by staff for concern of possible suicide risk <input type="radio"/> Patient is being considered for step-down on suicide watch
--	--

Columbia-Suicide Severity Rating Scale

SUICIDE IDEATIONS, DEFINITIONS, AND PROMPTS

Ask questions 1 and 2	
1. Wish to be dead: Person endorses thought about a wish to be dead or not alive anymore, or wish to fall asleep and not to wake up Have you wished you were dead or wished you could go to sleep and not wake up?	<input checked="" type="radio"/> Yes <input type="radio"/> No
2. Suicidal Thoughts: General non-specific thoughts or wanting to end one's life/commit suicide. "I've thought about killing myself" without general thoughts of ways to kill oneself, associated methods, intent or plan Have you actually had any thoughts about killing yourself?	<input checked="" type="radio"/> Yes <input type="radio"/> No
If YES to 2, ask questions 3,4,5 and 6. If NO to 2, go directly to question 6.	
3. Suicidal Thoughts with Method (without specific plan or intent to act). Person endorses thoughts of suicide and has thought of at least one method during the assessment period. This is different than a specific play with time, place, or method details worked out. "I thought about taking an overdose but I never made a specific plan as to when, where, or how I would actually do it...and I would never go through with it." Have you been thinking about how you might kill yourself?	<input type="radio"/> Yes <input checked="" type="radio"/> No
4. Suicidal Intent (without specific plan): Active, suicidal thoughts of killing oneself and patient resorts having some intent to act on such thoughts, as opposed to "I have the thought but I definitely will not do anything about them." Have you had these thoughts and has some intention of action of them?	<input type="radio"/> Yes <input checked="" type="radio"/> No
5. Suicide Intent with specific plan: Thoughts of killing oneself with details of plan fully or partially worked out and person has some intent to carry it out. Have you started to work out or worked out the details of how to kill yourself? Do you intend to carry out this plan? (if yes to either question score as a YES)	<input type="radio"/> Yes <input checked="" type="radio"/> No
6. Suicide Behavior Question: Have you ever done anything, started to do anything, or prepared to do anything to end your life? Examples: Collected pills, obtained a gun, gave away valuables, wrote a will or suicide note, took out pills but didn't swallow any, held a gun but changed your mind or it was grabbed from your hand, went to the roof but didn't jump, or actually took pills, tried to shoot yourself, cut yourself, tried to hang yourself, etc...	<input type="radio"/> Yes <input checked="" type="radio"/> No

If YES, ask how long ago did you do any of the above behaviors?	<input type="radio"/> Over a year ago <input type="radio"/> Between three months and a year ago <input type="radio"/> Within the last three months
---	--

Type of Watch and Frequency

Type Suicide Precaution:	<input type="radio"/> Constant Watch <input type="radio"/> Level I Suicide Watch <input checked="" type="radio"/> Level II Suicide Watch
Reason for Watch:	<input checked="" type="checkbox"/> Ideation/Threat <input type="checkbox"/> Plan <input type="checkbox"/> Act <input type="checkbox"/> Other
Events leading to placement on suicide watch (include patients report as well as the official version of the event).	Pt. reported that he last had thoughts of harming himself in September 2017.
